Endpoint Management for Microsoft Teams Rooms

Encourage high-quality collaboration across meeting rooms by seamlessly blending people, technologies, and spaces with Microsoft Teams Rooms

Productive collaboration requires seamless employee interactions across locations. But in many enterprises, the diversity of meeting rooms and conferencing facilities prevents employees from experiencing fulfilling and useful meetings.

GlobalRapide Endpoint Management for Microsoft Teams Rooms creates a uniform meeting experience that can help employees accomplish more, without suffering from the negative dividends of geographic diversity.

BENEFITS OF GLOBALRAPIDE ENDPOINT MANAGEMENT FOR MICROSOFT TEAMS ROOMS

ENHANCED PRODUCTIVITY:
Connect and collaborate faster, to get more done

FASTER TIME TO MARKET:
Enjoy efficient deployment, management and migration

MORE CONVENIENCE:
Make any location a Teams space, wherever your people are

SIMPLIFIED ENVIRONMENT:
Consolidate multiple platforms and vendors, integrate all devices

HOW DOES TATA COMMUNICATIONS GLOBALRAPIDE END-POINT MANAGEMENT WORK?

Smarter management for Device Ecosystems

Intune-based enrolment and policy enforcement

Consistent management across device types

Telemetry and data-driven diagnostics / insights

Low friction for SMB / Enterprise

Manual / Dynamic Device Grouping

*Scheduling of updates and other activities*

Location-Aware Device Policies

Fully managed services

WHAT YOU GET

ANALYSE, OPTIMISE
Powerful tracking for device and feature usage for ultimate optimisation

RICH DATA, RICHER INSIGHTS
Advanced telemetry combines device and app performance metrics

MANAGEMENT MADE EASY
Define activities by device group or location, and schedule execution

FUTURE-PROOFING BAKED IN
Comprehensive software update framework for firmware and applications

YOUR DEVICES, YOUR WAY
Define location/zone hierarchy based on your organization's structure

Tata Communications
End Point Management
for Microsoft Teams

ENROLL AND GO
Zero-touch device provision without any user interruption

CUSTOMISE DEVICES
Define device groups, manually or dynamically

POWERFUL CONFIGURATION
Set up, manage and re-use configuration profiles

ALWAYS-ON HEALTH CHECK
Manage device health with heartbeat, ping, restart and reset

YOUR WORLD, AT-A-GLANCE
Simple dashboard gives you comprehensive health and status insights

RECOMMENDED DEVICE CONFIGURATIONS

Room Type	Large executive office	Focus Room	Small Conference Room	Small Conference Room	Medium Conference Room	Large Conference Room	Extra Large Meeting Space
Room Capacity	1 to 4 people	0 to 4 people	0 to 4 people	4 to 8 people	12 to 20 people	18 to 20 people	20+ people
Room Dimensions	Within 2.3 meter radius	3 meters by 3 meters	Within 2.3 meter radius	3 meters by 4.5 meters	4.5 meters by 6 meters	4.5 meters by 8.5 meters	8.5+ meters
Meet and Present	Integrated device	Integrated device	Surface Hub 2S 50"	Modular TEAMS ROOM	Modular devices	Modular devices	Modular devices
Meet and Cocreate	Surface Hub 2S 50"	Surface Hub 2S 50"	Surface Hub 2S 50"	Surface Hub 2S 50" + A/V peripherals	Modular devices + Coordinated Meetings + Surface Hub 2S	Modular devices + Surface Hub 2S	Modular devices + Surface Hub 2S
