CEO, MyRepublic

“MIX & MATCH” - SELECT THE MVNE SERVICES YOU NEED

Tata Communications MOVE™ - MVNE platform consists of ‘mix and match’ modules. Use the combination that works best for you. Our hosted MVNE service provides you with the infrastructure you need to differentiate your business.

- **Best-in-class technology** - includes SCP, GGSN/PCRF, HLR/HSS, IN/OCS, VAS, SIM management, and OSS/BSS. The network elements support real-time rating and charging and CDR/EDR generation.
- **Efficient multi-tenant architecture** - plus secure, carrier-grade redundant infrastructure.
- **Robust Operations and Business Support Systems (OSS, BSS)** - complete control of your business and information on customer status via a secure, easy-to-use portal – with full support for post-pay and pre-pay subscribers.
- **Technology agnostic connectivity** - supports service deployment across WiFi, 2G, 3G or 4G GSM.
- **Diverse commercial models** - from a brand extension, mobile loyalty and second brands to corporate propositions for employees.
- **Multiple service options** - supports pre-pay post-pay and hybrid subscriptions. We also provide multi-IMSI and M2M/IoT connectivity plus multi-MSISDN and global WiFi roaming services.
- **Easy access self-care/management portal** - manage products and services and access account information and customer reports. A branded self-care module for your subscribers is also available to manage their account as well as generate monthly retail bills.
- **MVNO-managed help desk for first line CRM support** - with 2nd and 3rd line support through us via a trouble ticketing module.
