

TATA COMMUNICATIONS GLOBALRAPIDE FOR WEBEX SUITE

Unleash global collaboration: Empower your workforce with Tata Communications GlobalRapide for Webex Suite.

- Seamless global communication: Effortless calling across borders, including regions like India and China (Enterprise Cloud Calling).
- Crystal-clear meetings: Experience high-definition audio and video conferencing (HD Audio and Video).
- Enhanced collaboration: Boost teamwork with instant messaging, file sharing, and co-creation tools.
- Empowering all users: Supports diverse needs with features for power users and basic users on various devices (desktops, mobiles, tablets).
- Elevated meetings: Host webinars, events, training sessions with recording, analytics, real-time translations, and virtual backgrounds.
- Unified cloud experience: Integrates with domestic cloud PSTN services in over 50+ countries, replacing traditional phone lines.
- Deployment flexibility: Choose on-premises, hybrid, or full cloud with multi-tenant or dedicated cloud PBX options.
- Unwavering security: Industry-leading data protection and built-in disaster management for peace of mind.

WEBEX SUITE PLAN

PLAN: STANDARD

DEPLOYMENT TYPES SUPPORTED: ON-PREMISE (GATEWAY, MEDIA NODE) AND CLOUD

SOLUTION DETAILS

1. Enterprise Cloud Calling and Meeting solutions for global customers. Calling based on Cisco's Webex Calling and Meetings on Webex Meetings.
2. Globally available including India and China.
3. Includes enterprise-grade calling features like high quality voice and video calling with advanced noise removal, voice mail, phone directory, voice queues, auto-attendant, call centre features, cloud recording, US 911 support, Microsoft Teams compliant, etc.
4. Includes enterprise-grade meeting/conferencing features like high quality audio, video conferencing, webinars, events, trainings, support, recording, polling, slide polling, Q&A, reporting and analytics, real-time translations, gesture recognition, noise removal, customised layouts, post meeting scripts, virtual backgrounds, breakout rooms, etc.
