

# TATA COMMUNICATIONS GLOBALRAPIDE FOR WEBEX MEETINGS

Unleash global collaboration: Power your multinational with seamless cloud meetings. Effortless communication, exceptional experiences, one platform.

Our GlobalRapide for Webex Meetings (Enterprise Cloud Meeting) solution empowers your global workforce with features designed to bridge geographical divides and foster seamless collaboration.

## Key Benefits:

- **Global Connectivity:** Connect seamlessly across borders, including major regions like India and China.
- **HD audio and video:** Experience crystal-clear conferencing ideal for webinars, events, training and support.
- **Advanced features:** Record meetings, conduct polls and Q&A, gain insights with reporting and analytics.
- **Enhanced communication:** Real-time translations and gesture recognition for a richer experience.
- **Noise removal and customisation:** Ensure a professional environment with noise removal, layouts and backgrounds.
- **Integrated collaboration:** Effortlessly collaborate with built-in messaging, presence, file sharing and co-creation tools.
- **Device-agnostic:** Connect from desktops, mobiles, tablets, video phones, IP phones, and more.
- **PSTN integration:** Simplify meeting participation with traditional phone networks.
- **Flexible deployment:** Choose on-premises, hybrid or cloud solutions, with multi-tenant or dedicated PBX and Bridge options.
- **Unwavering Security:** Enjoy peace of mind with industry-leading data protection and disaster management.
